## The New SE8000 Touch Screen Thermostat

Application-specific room controllers offer the control of DDC systems with the user-friendliness of thermostats. Optimizing comfort through energy efficiency delivers a memorable customer experience while maximizing your return on investment.

Scan the QR code at the top of the page to get a feel for the SE8000 thermostat. We have added a couple features not yet available in the thermostat to enhance the demo experience. You will see added features like outside weather and the 5-day forecast. The indoor temperature and setpoint are not real-time values as this is a demo but play with it and have fun.
